

Jefferson Co. Emergency Management List of PPE Suppliers

The Jefferson County Department of Emergency Management, Logistics Section, has been compiling a list of possible suppliers of Personal Protective Equipment for local businesses who are planning to reopen and need gloves, masks, disinfectant, hand sanitizers, gowns, etc.

The list is not all-inclusive but includes some of our local merchants who stock such items and may have stock on hand to help others get up and running again. Inventories may not be all-inclusive and those in need are advised to call or email or visit the merchant's website if available to check their stock levels and delivery arrangements. Those in need may also investigate the internet, particularly Amazon.com and search Google.com for sources of supply. Others listed are from alternate sources who have contacted JCDEM to indicate they are also willing to help with supplies. Call, email, or visit their websites for more info.
